2. Last Service 11:30pm (except Friday: 01:00am)
Light rail is proudly operated by Canberra Metro Operations. Our staff are here to ensure that every passenger enjoys an exceptional travel experience.

The following diagram illustrates the layout of the light rail vehicle (LRV).
Have you got your ticket?

All passengers need to purchase their tickets before boarding. All Transport Canberra fares and tickets, including pre-purchased bus tickets, are valid.

There are several methods of purchasing a ticket:

**MyWay Card**

Buy your MyWay card in advance online or at a MyWay recharge agent. You can top up your MyWay card at a ticket vending machine. Please tap on at the platform validator before boarding the LRV and tap off at your destination stop. Platform validators are located at all stops.

**Ticket Vending Machine**

Ticket vending machines are located at all stops and bus interchanges. You can purchase a single trip ticket which includes a free 90-minute transfer period. Daily tickets allow unlimited travel until the last service from the day of purchase.

All tickets are valid for travel on light rail and buses.

---

Travel safely

**Waiting at the stop**

For your security, all stops have 24/7 CCTV cameras installed.

Remember to stand behind the yellow safety line and wait for passengers to leave the LRV before getting on board. Don’t forget to tap on with your MyWay card before you board.

**On board the LRV**

Please take a seat if one is available or hold onto a handrail or pole as the LRV may brake unexpectedly.

There are dedicated areas at stops and on board for mobility aid users, and red priority seating on board the LRVs for elderly people, pregnant women and people who have impaired mobility.

When travelling with a bicycle, you must use the bicycle racks at all times.

**Exiting the LRV and light rail stop**

Please remain seated or hold onto a handrail until the LRV comes to a complete stop. Once off the LRV, remember to tap off with your MyWay card and please use the designated crossing points to cross the tracks and road when leaving the stop.

---

Canberra’s better connected

**Bus and light rail connection**

The light rail network has been designed for bus to light rail connectivity at key locations.
